Feeling is believing – wonderfully textured timber-aesthetic

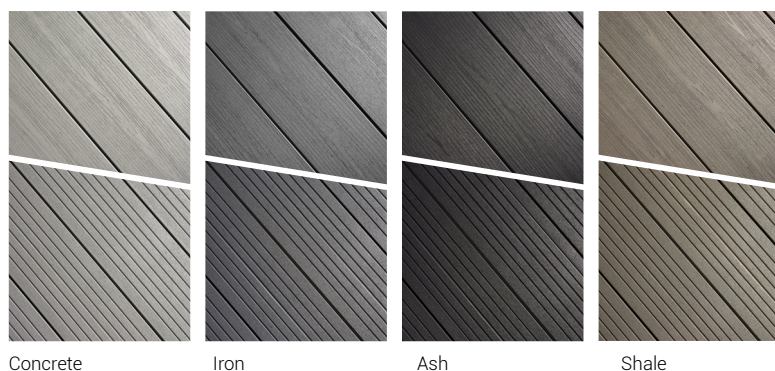

For long-lasting composite decking with minimal annual maintenance, choose SwitchBoard Ultra from Liniar. Manufacturing high quality decking in the UK since 1999, Liniar's next-generation addition to the range features a solid, 100% synthetic core containing recycled material with premium capping technology – designed to out-perform traditional timber deckboards.

Quick and easy to install, SwitchBoard Ultra can be used anywhere you'd normally fit decking – safe in the knowledge it will last for many years to come with no sanding or staining required.

SYSTEM COMPONENTS

COLOUR OPTIONS

FULLY REVERSIBLE

Choice of grooved or woodgrained finish

PREMIUM FEEL AND TEXTURE

Featuring a textured, deep embossed surface on both sides, SwitchBoard Ultra deckboards have a 3D touch and a matt surface for a flawless finish

A DURABLE ALTERNATIVE

Use anywhere you'd usually use timber; longer lasting than traditional wooden deckboards

ROT-FREE CORE

Premium capping technology ensures each core is protected from damp, decay and mould

LOW MAINTENANCE

Will not rot, rust or stain and requires no painting or sanding

FAMILY FRIENDLY

Anti-slip, splinter-free and barefoot friendly

FULLY TESTED

Tested for slip and wear resistance

FULLY WARRANTED

Warranty assurance for peace of mind

EASY TO ORDER

Available to order in pre-cut lengths or full kits

EASY TO INSTALL

Deckboards can either be installed with face-fixings like a timber deck, or using the T-Clip system to ensure no visible fixings

SUSTAINABLE

Contains recycled material and is fully recyclable

MADE IN BRITAIN

Designed and manufactured to the highest standards at our state-of-the-art Denby HQ

Available in pre-cut lengths for easy ordering and installation.

Compatible with Liniar's unique aluminium sub-frame for a fully timber-free project.

Complete your decking area with complementary balustrade and low maintenance fencing.
