UK DECKBOARD MANUFACTURER SINCE 1999

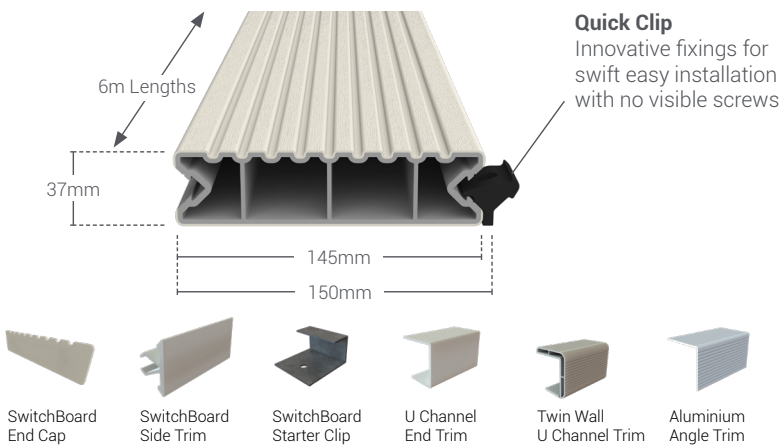

**Quanex**<sup>®</sup>

## Low maintenance, anti-slip PVCu decking from Liniar

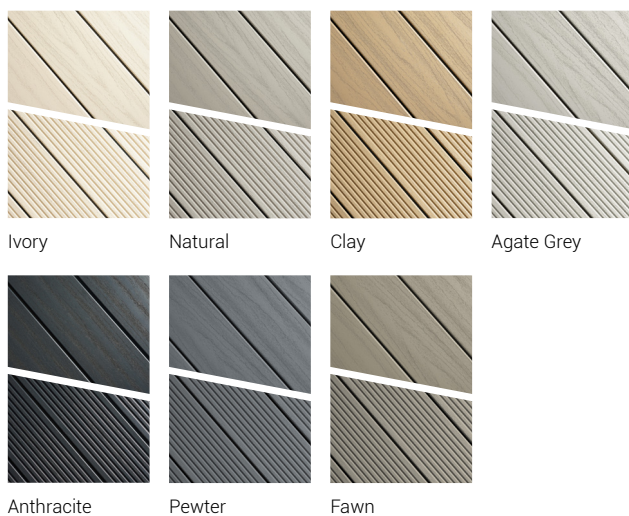

Enjoy maximum relaxation and less time looking after your garden, with SwitchBoard composite decking. Choose from 7 contemporary nature-inspired colours and two different surface options – or mix and match.

Quick to install and UV stable, SwitchBoard was developed using the latest technology by a British company manufacturing decking since 1999. It's made from a combination of PVCu polymers, making it strong, durable and recyclable – outperforming traditional timber decking and helping to reduce deforestation.

### SYSTEM COMPONENTS

### COLOUR OPTIONS

#### FULLY REVERSIBLE

Choice of grooved or woodgrained finish

#### ROBUST

Will not warp, bend or decay

#### LOW MAINTENANCE

Will not rot, rust or stain and requires no painting or sanding

#### FAMILY FRIENDLY

Anti-slip, splinter-free and barefoot friendly

#### FULLY TESTED

Tested for slip and wear resistance

#### FULLY WARRANTIED

Warranty assurance for peace of mind

#### EASY TO ORDER

Available to order in pre-cut lengths or full kits

#### QUICK TO INSTALL

Innovative 'Quick Clip' fixings for a swift easy installation with no visible screws

#### SUSTAINABLE
